POLITICAL SITUATION IN NEW LONDON

(Special to The Bulletin.) New London, Sept. 27.-The political kaleidoscope has taken another turn in New London and the Murray faction of the democratic party that was defeated a month ago when del-egates to convention were elected, landed on top in the selection of dele-gates to the city convention to nominlanded on top in the selection of delegates to the city convention to nominate mayor and other city and town officers, defeating the Miner faction by
a large majority. This shows the lack
of stability of local democratic politics, which are likened to that traditional flea and the Irishman. Yes,

Miner, easily the strongest and best qualified man for the office in that party, and against Frank L. McGuire of the law firm of Hull, McGuire and Hull. It was the entry of McGuire into the triangular contest that paved the way for Murray.

There probably has not been a caucus and city convention of the democrats for years when any single democrat received the united and evidently organized support of the liquor dealers. It was these gentlemen that played the winning cards for Murras. played the winning cards for Murras, but there is question whether he will get as united support at the polls. Murray must have the undivided support of the liquor interests and the vote of every democrat in the city to make a respectable showing. This he will probably do and that is about all. While Murray won out in caucus and convention hands down, still he is not the choice of many, a great many, in the democratic party, who will hold to the opinion that were Miner nominated he would stand a good chance of election, as there are republicans in numbers who are not dead struck on the ability or fitness of the repub-

ment thereof by the retiring adminis-tration, and it will take a bigger man than John F. Murray or E. Frank Morgan, the republican nominee, to adjust matters and manage the same in the New London of today. The present is not like the old New Lon-

tion, as under present conditions there is no occasion for party enthuslasm, and there prevails a general feeling that party should be set aside in the selection of a mayor for this progressive, growing city. Still after all, on this occasion it is a sort of Hobson choice. Therefore it is probable that republicans will vote for Morgan and democrats for Murray, If this is done the result can be readily

The court of common council will continue in the control of the republeans and with an increased vote. It being quite probable that aldermanic nominees on the republican ticket will be elected in at least three of the five wards and perhaps that party will win in four wards, and also elect a ma-jority of the board of selectmen.

Perhaps the most hotly contested office at the polls will be that of as-sessor, the contestants being Thomas H. Murray, democrat, the present in-cumbent, and Almiran T. Hale, re-publican, who was collector of cuslican nominee, and would have supported a man of the Miner type.
